We entered into a collaboration with TG Software House, a limited liability company with a share capital of 51,000 PLN, registered in Poland at ul. 3 Maja 22 /2c, 40-096 Katowice, with NIP number 6342992953, hereinafter referred to and operating under the brand TG Coders (Tgcoders.com), for the development and implementation of an application for managing patients participating in the Tick-Borne Disease Prevention Program in the Eastern Macroregion (Podlaskie and Lublin Voivodeships). The Contractor's responsibilities included, among other things, creating the logic and programming the backend structure, developing the database, implementing security infrastructure, designing graphics, slicing and deploying the prepared graphics, adapting the designs for mobile devices, and preparing various customized elements, with a particular emphasis on user and data security.

TG Coders fulfilled all tasks excellently. Moreover, throughout the collaboration, we received valuable support and numerous recommendations from the company's employees regarding the application's functionality and technical matters. All of our suggestions and feedback were taken into account. The data management system offered by TG Coders proved to be very practical and easy to use, fully meeting our expectations.

During our fruitful cooperation, we recognized the professionalism of the services provided by the Contractor, as well as the high competence, diligence, and experience of the company's employees in creating custom IT solutions. TG Coders is a highly recommended Contractor, capable of meeting technically complex client expectations while maintaining the highest standards of cooperation and security.
